### **Statement from Life Care Center of Orange Park**

At Life Care Center of Orange Park, residents are our highest priority.

In April 2018, during standard medication checks, it was discovered that medication was missing. We immediately notified the local police, the Florida Department of Health and all other appropriate agencies.

This nurse arrested for allegedly stealing the medication was terminated. Every associate at Life Care Center of Orange Park undergoes a Level II background check as well as quarterly reviews of license status. These precautions exceed state requirements for skilled nursing facilities.

Since this is an ongoing criminal investigation, we cannot provide additional details about this nurse or the theft. We will continue to comply with authorities and are, as always, focused on providing quality patient care.

--Donny Crews, Executive Director
